- Established regulated legal structure (BVI) and yield partner integrations, navigating compliance constraints to deliver a secure, enterprise-grade product.

- Raised \$1.5M, grew the team from scratch, and led partnerships across wallets and marketplaces to drive distribution and customer engagement.

Product Lead, Spenmo YC S20 (Fintech SaaS) Nov 2021 – Jul 2022 | Singapore

- Launched Spenmo's B2B credit product (Brex/Ramp equivalent for APAC), expanding into a new regulated revenue line via banking-as-a-service partnerships and regional compliance workflows.
- Owned data export integrations to Xero, enabling SME customers to sync spend and financial data directly into their accounting platform, driving customer adoption and satisfaction.
- Instrumented Mixpanel across all squads, introduced Braze for lifecycle marketing, and rolled out feature flags and A/B testing org-wide to optimize product performance.
- Scaled the product function: hired and onboarded PMs, introduced product analytics standards, and established operating rhythms to support rapid growth.

Co-founder & Head of Product, Dirac AI (AI Sales Intelligence) Oct 2020 – Sep 2021 | Singapore

- Founded Dirac AI, building a B2B sales intelligence platform competing with Gong and Chorus in the US market, leveraging early access to GPT-3 for zero-shot prompt engineering.
