SUMMARY

Product leader with 10+ years shipping B2B SaaS and AI platforms across global markets. Proven track record building operating cadences, scaling products from 0 to commercial traction, and leading cross functional teams.

WORK EXPERIENCE

Co-founder & Head of Product, Foundation (Fintech Infrastructure) Mar 2024 – Present | Remote

- Built the operating spine for a new product line: designed intake, prioritisation, and decision log processes that enabled rapid cross functional execution across engineering, legal, and partnerships
- Established weekly cadences and monthly update rhythms to track roadmap confidence across committed and conditional deliverables, ensuring visibility for founders and stakeholders
- Scaled product analytics and market intelligence function from scratch, instrumenting dashboards that surfaced real time metrics on TVL growth to \$20M and 5k MAU

Product Lead, MC Research (Web3 / Consumer Platform) May 2022 – Jan 2024 | Remote

- Owned the single intake process for product asks across engineering, design, and ecosystem partners, routing and prioritising requests to align with strategic goals
- Built and maintained a product decision log tracking open trade offs and dependencies, enabling clear escalation paths and faster resolution cycles
- Delivered executive communication packs for leadership, translating complex cross chain integration roadmaps into actionable updates for founders

Product Lead, Spenmo · YC S2O (Fintech SaaS) Nov 2021 – Jul 2022 | Singapore

- Established the product operations foundation for the entire org: introduced analytics standards, feature flags, and A/B testing frameworks that improved decision velocity across teams
- Built and managed a team of PMs and analysts, developing operating rhythms and prioritisation cadences that scaled the product function from 0 to a high performing unit
- Created field guidance and product portal governance for a new B2B credit product, ensuring consistent execution across regional compliance workflows and banking partnerships

Co-founder & Head of Product, Dirac AI (AI Sales Intelligence) Oct 2020 – Sep 2021 | Singapore

- Designed the operating model for an AI platform from scratch: built intake processes for customer asks, engineering constraints, and founder direction, enabling coherent product delivery
- Led cross functional coordination across product, engineering, and GTM teams to launch pilots with YC startups, managing roadmap confidence and field guidance in a fast moving environment
- Established market intelligence function by securing early GPT 3 access and designing zero shot prompt architectures, feeding competitive insights into product strategy

Head of Product, Empala · Antler SG4 (Fintech / Lending)

Mar 2020 – Sep 2021 | Singapore

- Owned end to end product delivery for a regulated fintech platform, building the operating cadences and compliance workflows that enabled launch under tight regulatory constraints
- Managed cross functional dependencies across engineering, legal, and payroll partners, maintaining a decision log and prioritisation framework to track commitments and escalations

Director of Product, Vincere (B2B SaaS · HR Tech)

Jul 2019 – Feb 2020 | Vietnam

- Led global product strategy and operations for a B2B SaaS platform, reporting to CEO and board with executive communication packs that translated roadmap status into clear decisions
- Managed a cross functional team of 20, establishing weekly prioritisation cadences and field guidance processes that improved delivery predictability across multiple client segments

Founder & Head of Product, Answerbuddy (Conversational AI Startup)

Jan 2018 – Jun 2019 | Remote / Vietnam

- Built the operating foundation for an AI startup: designed intake and prioritisation processes for customer asks and engineering constraints, enabling rapid iteration on dialogue systems
- Led cross functional team of engineers and ML developers, establishing decision logs and update rhythms that kept the team aligned on roadmap commitments and trade offs

Senior Product Owner, Navigos / En-Japan (HR Tech)

Aug 2017 – Jul 2019 | Vietnam

- Delivered products on a multi client B2B SaaS platform, applying lean methods that cut time to market 4x and saved \$150K per initiative while improving customer satisfaction by 20%
- Established product analytics and market intelligence practices, using data to drive roadmap prioritisation and field guidance for a platform serving agencies with large client portfolios

Product Manager, Paymentwall (Global Payments)

Aug 2014 – Jun 2017 | Global

- Led product operations for a global payments platform serving 90+ countries, managing intake and prioritisation of merchant onboarding improvements that reduced time to live by 50%
- Built merchant facing analytics dashboards and internal tooling, creating the operating infrastructure for real time visibility into revenue, transaction volumes, and payout reporting

Associate, KPMG Ukraine (Audit & Advisory)

Oct 2011 – Jun 2014 | Ukraine

- Audit and advisory across financial services and fintech clients, foundational grounding in accounting, compliance, and financial reporting
